THE RIFLE.

On Saturday the last competition in the Territorial League matches took place. Our local teams shot together on the Police Range. The wind—a five o'clock one—was frisky and tricky, while the light was execrable, one of the worst we have ever experienced. The scoring was the poorest we have had here for some time, some of the best shots going to pieces. Only two of the Association's regular team turned out, the others being too busy to spare the time. The following scores were made:—

S. P. R. ASSOCIATION.

Names.	200	300	400	500	600	Total
Stewart, John	20	17	22	22	29	110
Parker, J. F. D.	22	26	26	26	71	145
Johnson, J. L.	19	23	21	63		126
Smith, J. M.	24	11	12	50		97
Agnew, T. J.	24	25	11	60		120
Total Score	109	105	92	306		612

N. W. M. POLICE.

Rank and Name	200	300	400	500	600	Total
Serjt. Bailey	30	25	27	82		164
Corst. Kerr	25	21	22	71		149
Const. St. Dennis	25	20	23	68		136
Staff Serjt. Parker	28	26	28	82		164
Major Cotton	27	26	20	73		146
Total Score	135	121	120	376		752

Had Police and Association teams shot together the total for five matches would have been:

Police.....2061
Association.....2018

Total

4079
4069 would have given us ninth place on the Military Rifle League and a silver cup. It would also have given us first place in the Association teams and a cup.

Staff Serjt. Parker's aggregate in five matches was eighty-six and three-fifths, Serjt. Bailey, eighty-four and one-fifth.

SUDDEN DEATH.

The following is taken from the Regina Leader of Sept 15:—"Mr. Lang, a farmer who came down to Regina from Prince Albert last fall, and took up a homestead seven miles southwest, died on Tuesday night of Canadian cholera. He came in from the farm three days before, feeling unwell, and went to the Queen's Hotel, where he succumbed to the illness very suddenly. His wife was telegraphed to in Ontario, and by her instructions he was buried here on Wednesday. Deceased was a most splendid physique, a blacksmith by trade, about fifty years of age, and his sudden death is a particularly sad one.

AN IDEAL WIFE.

A \$350 Sealskin Coat for the Lady Com- ing Nearest the Requirements.

Every lady sending five cents for a three months trial subscription to the Ladies Pictorial Weekly, may expect a sample of her handwriting (not less than six lines), for the determination of her character in Prof. Wick's Psychological Prize Examination. The story of a married lady possessing, according to her own characteristics necessary for the making of a good wife, will be presented to the publishers with an Elegant Sealskin Coat, costing \$350. To the lady standing second in the examination, will be presented a first class Ladies' Watch, costing \$85. To the lady standing third will be given a Silk Dress Pattern, of the best quality, costing \$45. To the next five, Opera Glasses, costing \$30 each. To the next ten, Handmade Pocket Watches. To the next twenty, beautiful Mantel Clocks. To the next thirty, beautiful Push Workboxes, and a number of articles, with a full list of them, will be given, with the rules, in the Ladies' Pictorial Weekly. An elegant Table, to be given each day to the lady whose handwriting is received, and upon line, is pronounced the best of those received that day.

The regular price of this publication is \$2 a year, and is equal in every respect, to the high priced illustrated English or American magazines. Three months' trial for 50 cents, either in three cent stamps. Address the Ladies Pictorial Weekly, Toronto, Canada.

R. S. McKenzie, Indian Agent at Duck Lake, came into town on yesterday evening's train.

The Toronto Presbyterian Mission for Sept. 17th and 24th will contain a verbatim reports of Rev. John McNeil's great sermons preached in Toronto 13th inst.

Mr. J. Finlayson, Indian Agent, Musk Lake, and Miss Maggie Finlayson, came in on Tuesday evening's train.

About fifty residents of the town and vicinity are leaving by tomorrow's excursion train for Winnipeg to visit the Industrial Exhibition which opens on the 25th inst.

A special sitting of the Supreme Court was held here on the 22 d inst. The only case on the docket was that of the Queen vs. Nanette Labouie, who was charged with concealing the birth of her child. The case was tried before His Lordship Justice McGuire, Capt. Young associate Justice, and a jury composed of C. Mair sr., foreman, G. S. Davison, J. M. Coombs, Jas. Taylor, J. E. Sinclair and R. Gwynne. James McKay appeared for the Crown, and the prisoner was defended by W. R. Gunn. The trial lasted most of the day and resulted in a verdict of not guilty.

The Fireside Weekly is offering great cash prizes for the solution of their Poetical Puzzle. Three hundred and fifty dollars are offered every week, divided as follows: First prize, \$150; second prize, \$75; third prize, \$50; next fifteen, \$5 each, \$75. These prizes are given to the first correct answer received each week, beginning Monday, Sept. 21, and ending Nov. 30th—the prize list beginning over again every Monday morning. In addition to this \$50 will be given away to the first correct answer received each morning, and to every fifth of those not securing cash rewards a handsome silver gipsy kettle with stand, valued at \$6, will be given. Each solution must be accompanied by \$1 for six months' subscription (26 numbers) to Canada's popular and only story paper. For full particulars buy a sample copy from your newsdealer, or send 5c. to the Fireside Weekly, 9 Adelaide Street West, Toronto.

IMMIGRATION AGENTS.

The Calgary Board of Trade are
just now hauling over the coals a
Mr. Miquelon, Dominion immigra-
tion agent at that point, the cause
of trouble being that this agent—in
a weak moment—was guilty of ad-
vising some recently arrived immi-
grants to locate in the Edmonton
district. The contention of the
Board of Trade is that this agent is
appointed solely in the interests of
Calgary, and although Edmonton
may help to bear the burden of the
salary paid, they are not even to re-
ceive the benefit of a favorable op-
inion from the holder of the office.
The circumstance will tend to great-
ly strengthen the belief that certain
points within the Territories are
being most unduly favored. Some
months ago, when we mustered up
courage enough to request that a
local immigration agent be appoint-
ed for this district, we were told
that the agents already appointed
were not for local purposes as the
name implied, but that their office
was intended for the general bene-
fit, and for that reason they were
located only at distributing points.
The trouble in Calgary clearly shows
that the leading organization of that
town does not view the office there
in any such light, and the action of
other agents throughout the country
certainly bears the good people of
Calgary out in their contention. We
have an idea that outside the local
work such officers could do they
are of small benefit, and unless such
appointments can be made general
throughout the Territories, those
already appointed so far as general
immigration work is concerned,
might as well be paid off. We have
no objections to Calgary or any
other point having the advantages
of such an officer, but we do object
to other points being left without
any such advantages, and until such
time as it is clearly shown that the
contention of Calgary is borne out
by the Immigration Department,
the Board of Trade are not justified
in arguing that Canada pays this
man his salary for the sole benefit

of Calgary and the country imme-
diately about it, and until such time
as definite instructions to the con-
trary reach Mr. Miquelon, he should
not hesitate to recommend Edmon-
ton or any other district as well ad-
apted for settlement. We claim
that the immigration agents at Re-
gina, Calgary and elsewhere, are
purely local appointments and should
be so recognized by the Govern-
ment. When this is done, we ex-
pect Prince Albert will be looked
after and a long needed agent will
be named for this district.

WHERE DO YOU LIVE?

Rumor has it that the electoral
divisions of Saskatchewan are all to
undergo another change. We are
free to admit that such can be done
to advantage, speaking particularly
of the Prince Albert district which
we have always felt would be much
better divided. We certainly feel
that the first division as published,
was hardly such as was looked for.
We trust now, if the question is
again open, that the Government
Road west of river lot 77, or the
eastern boundary of the H. B. Re-
serve will be chosen as the dividing
line. While of these two points we
would prefer the former, either will
be wiser than running a line through
the centre of the town.

The local elections are being gen-
erally discussed throughout the Ter-
ritories. The Regina Standard in
referring to them very appropriately
remarks:—"Let the electors bear
in mind that the foundations of the
future are being laid, and that mat-
ters of mere local concern are but
of secondary moment. The Territories
Act, as amended at the present sit-
ting of Parliament, empowers the
Assembly to levy direct taxation; to
legislate in respect to the liquor
question and introduce a license
system; to appoint, remunerate, or
discharge territorial officers; to in-
troduce the ballot system of con-
ducting elections and to partially
abolish the dual language system.
These and many other functions of
both civil and judicial concern are
now within the province of the As-
sembly about to be formed. They
are sufficiently weighty to demand
the thoughtful consideration of every
elector and the opinions of all can-
didates in respect to them should be
known." No one has as yet, an-
nounced himself as a candidate for
either in the districts of Prince Al-
bert. When it does become known
who the contestants are to be, the
public will no doubt demand the
fullest possible explanation on these
important questions.

\$1,000 for immigration building
at Prince Albert, so says the sup-
plementary estimates. Let them be
gone on with at once. Only a week
or so ago, a number of new settlers
were forced to remain in the car all
night suffering much inconvenience,
which should not be necessary at
an important point like Prince Al-
bert.

A report is current that English
troops now occupy the island named
Mitylene, near the mouth of the
Dardanelles. If such should prove
to be the case, Russia will have to
start in again getting up new plans
for securing the occupation of Con-
stantinople.

We are in receipt of the initial
number of the Birtle Eye Witness, published
at Birtle, Man., by Wilson & Machesney.
It is a new well printed sheet, and we
have no doubt be of great benefit to
the section of country in which it is pub-
lished. We wish Mr. Machesney and his
partner success in their venture.

(Robt. B. Foster in Dominion Illustrated.)

Eastward and westward toward the land of adventure! Wearing the uniform of the prairie we sought the home of the Northern Lights, where we might drive away dark care undisturbed by the fetters and customs of civilized life. The years are few when all over the prairie land we travelled undismayed by the presence of the gentler sex and the endless iron pathway which spans the continent from sea to sea. No longer may we don our suits of buckskin, and stride the irrepressible Indian cayuse, travel leisurely, feasting on slap jacks and pemmican. Civilization has invaded our territory and we must without a murmur submit to the inevitable. How our hearts long for the days of yore, when the prairie was our dearest couch and the Indian our truest friend. Alas! the songs of freedom unbowed which oftentimes we sang now die upon our lips, for scarce a note is sounded ere the noisy shout of the civilized cur arouses us from our prairie reveries, and we behold the change which has already come. Strangers to luxury are we, so in nowise daunted by the terrors of a day upon a construction train. We bid adieu to the fair city on the plains of Assiniboia—Regina, the capital of the Northwest—and northward our eyes are turned in eager expectation of the glories of valley and forest and lake in the great north-land. Leisurely the train crawls over the rails newly laid, and around Long Lake—the watering place of the Regina district—until the day is well high spent, and we slowly glide across the iron bridge which spans the Saskatchewan. Saskatoon looks down from its lofty station on the prairie across the river to the temporary station house and the few houses lately built. Northward still we journey past historic scenes and places with ever memorable names. Duck Lake and Battle Lake cannot be forgotten, and as we gaze upon the troop of half-breed children gathered at the station we let fall a silent tear for the sorrowing ones who still mourn for the brave soldier boys whose blood stained the grass upon the prairie and whose lives were laid down in defence of our honor. There fell the lad we loved, who left across the briny deep, an aged mother with silvery locks, who still weeps for her darling boy.

Thick darkness enveloped us ere we reached Prince Albert, but before the midnight hour we found repose in the house of a friend. The sun had scarcely risen when we sought to view the places of interest, memories of the years gone by. The town lies scattered along the banks of the river, stretching towards the hills whereon are erected some of the finest residences. Upon the hillside lay the Mounted Police Fort, the Court House and the Nisbet Academy. Struggling and straggling the town seemed to be praying for help, but the dawn of prosperity is at hand for this rising city of the North. Prince Albert claims the honor of having the first and only college in the Territories—Immanuel College, the pride of the founder, my old friend Bishop McLean. He rests at peace in the pleasant God's Acre belonging to the English Church—and there lies also the youthful Methodist missionary, E. W. Skinner, who bade farewell to the pleasures of city life in Toronto, and westward sped to tell the red men the story of the Cross, but alone upon the prairie he laid himself down—killed by an accidental discharge of his gun. Strangers mourned over him and gave him a final resting place in the Anglican cemetery. The town was founded by the Rev. James Nisbet, a Presbyterian minister, in 1866, and amid many vicissitudes it has developed until churches, schools and all the advantages of eastern towns belong to it. Immanuel College, the Roman Catholic convent, and the High School supply the educational wants of a population of over one thousand. The Saskatchewan institute, composed of the literati of the rising city, has striven to rescue from oblivion the early history of the district, and the customs, traditions, and tales of the half-breeds and Indians gathered around the camp fires. The Nisbet Academy was burned down within the past two years and the noble efforts put forth on behalf of education by the Presbyterians were suddenly terminated. There is a prospect of a commencement in the near future. It is surprising indeed to meet such a large proportion of educated men in these small towns in the Northwest, connected with the press, the professions, as storekeepers and farmers. Many of the clergymen are graduates of British and Canadian universities. A doctor of science is editor of a newspaper in this town, and the genial literateur and author of "Tecum-

seh," Charles Mair, is found among the most enterprising men of the town. On homeward we sped we saw large quantities of buffalo bones neatly piled up ready for shipment. The buffalo have not been in this district for the past ten years, and yet the half-breeds are gathering the bleached bones which lie upon the prairie and selling them. Time failed us to visit the Sioux Indian reserve of Chief White Cap, but we accepted as compensation a half-breed encampment near Saskatoon. Forty-nine Red River carts were drawn up and formed a square corral, whereon were gathered the half-breeds. Half a dozen boys were sporting themselves, throwing their knives in the air and letting them fall to the ground, reckoning the number of times the blades stuck in the ground. The elder lads had dug a hole in the prairie and made a fire, by which they were cooking their dinner. In primitive garb arrayed they were making bread, using a frying-pan as an oven, and the product of their labor appeared to be very good. The brigade of carts had journeyed from Battleford to Saskatoon at the rate of twenty miles a day, and the return trip would be accomplished within the same time. Slowly we travelled southward, and when darkness had fallen heavily upon us we were roused from our dreams by the shrill whistle announcing our approach to the Royal City of the West. Weary pilgrims glided homeward, singing as best they could, "Home Sweet Home."

A few thoughts concerning

ASTHMA

Its Cause and Cure

Must interest every one afflicted with this terrible disease. To describe this disease to one that has suffered for years the untold agonies of suffocation and distress night after night and who in many extreme cases would only gladly welcome death in order to be relieved from such suffering with no prospects of ever being any better is not pleasant to contemplate. All the boasted remedies heretofore claimed to cure Asthma have failed or only given temporary relief. The smoking of leaves and herbs, saturated paper and pastilles has been resorted to as the last means for only a temporary relief anything being considered a blessing that will release the grasp of the fingers of death (even for a short time), which seems to be tightening every moment more and more; the sufferer knows that this is Asthma.

To-day suffocating, in a few days relieved, and no good reason can be given as to the cause of these sudden changes and return of suffering, only by the poisonous blood acting on the nerves producing the disease. In Asthma there is a

SPECIFIC POISON IN THE BLOOD THAT MUST BE DESTROYED

before Asthma can be

CURED

This poison is oft-times inherited and passed through many generations, like Scrofula, and it is its power to produce Asthma and oft-times affecting the lungs and bringing the sufferer down to a Consumptive grave. Location, with surrounding causes will arouse and set to work this poison in the blood, so that in some sections of the country an Asthmatic cannot live, even in one part of a city their suffering is intense, more to another part and they are entirely free from Asthma. Thus you learn that there exists a certain poison in the system, that when certain influences are brought to bear that exist in the atmosphere in many localities will develop this poison in an unusual degree thereby affecting the NERVES, producing spasms and difficult breathing, which every Asthmatic has had such sad experience with, suffering, and no hope of being cured; for having tried every known remedy, exhausted the skill of the physicians, have given up in despair.

After years of study and patient research and watching this disease in all its various phases under various circumstances we present a cure for Asthma known as DR. TAIT'S ASTHMALENE, which will entirely destroy this poison in the blood and restore the nerves to a healthy condition and when this is done the spasms will cease, the choking will subside, and the injury done to the lungs will begin at once to be repaired and the nerves restored to perfect health. ASTHMALENE is unlike all other so-called Asthma cures, as it CONTAINS NO Opium, Morphine, Ipecac, Squilla, Lobelia, Ether, Chloroform or any other drug or Narcotic, but its combination is of such a nature that it will destroy every particle of this poison in the blood and eliminate it from the system, effect a cure and give a night's sweet sleep. We have received thousands of testimonials from every State in the Union of the marvelous cure from the use of the ASTHMALENE. We have never published them, for testimonials have been manufactured so extensively and sold so cheap that people have no confidence in them.

WE DO NOT WANT YOU TO SEND US MONEY

We do not make out a long list of prying, personal and impertinent questions, nor do we resort to any clap trap or any nonsense of any kind in order to make monthly or permanent patients; we only ask one suffering from Asthma to TRY A FEW BOTTLES of Asthmaleene. We make NO CHARGE FOR a trial bottle to sufferers from this terrible malady. Send your name on a postal card and we will mail

FREE

enough of Dr. Tait's Asthmaleene to show its power over the disease, stop the spasms and give a good night's rest, and prove to you (no matter how bad your case) that ASTHMALENE CAN CURE ASTHMA, and you need no longer neglect your business or sit in a chair all night gasping for breath for fear of suffocation. Send us your full name and post office address on a postal card. THE DR. TAIT MED. CO., ROCHESTER, N. Y.

The majority of the party will remain, while a few will locate their claims at present, returning in the spring to break up land, erect buildings, fences etc. The fruits of the good work of our immigration committee have begun to show themselves, and we have no doubt that by this time next year hundreds of new settlers will have located in the Saskatchewan country.

In response to the invitation of the officers, non-commissioned officers and constables of F Division, the large Recreation Room at the Barracks on Thursday last, was completely filled with invited guests from the town and neighborhood, there being about eighty couples present, the majority of whom were members of last winter's quadrille club. The red coats of the Police contrasted with the black coats of the civilians, and the gay dresses of the ladies, made a very pleasing picture. The room, also, had been very tastefully decorated with bunting, etc., for the occasion. Dancing was kept up with great spirit throughout the night, when refreshments were handed around, after which dancing was resumed and kept up till an early hour, every one present thoroughly enjoying themselves.

Canadian intellect, art and workmanship. The Christmas Number of the *Dominion Illustrated* for 1891 will combine these elements to produce the most artistic and beautiful Christmas Souvenir ever issued in this country. It will surpass even the magnificent one issued by this house last year. Published by the Sabiston Litho. & Pub. Co., Montreal.

The large advertisement headed "Asthma" in another part of this paper can be depended on; Dr. Taft, the head of the Company has been a practicing physician for many years, and is held in high esteem in Rochester and that neighborhood; his ideas as regards the cure of "Asthma" are new and good, and his remedy undoubtedly commands the respect of those to whom he is personally known, or who give "Asthmalene" a trial.

When I say I cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now seeking a cure. Send at once for a treatise and a Free Bottle of my infallible remedy.
